**Abdullah Pehlivan** is the creator and Editor-in-Chief of the Turkish Business Directory UK-EU which is one of the publishing products of LBG awarded by University of Westminster and Ethnic Business Federation UK.

**Turkish Business Directory UK-EU** provides advice on how to set up a business in the UK; information on business networking services; includes profiles of successful business people in the UK and EU countries and provides a Directory of 25,000 businesses and companies that want to promote themselves to the Business community. The mission of the publication is to provide a platform to all business levels of the Turkish & Minority Enterprises within the UK-EU economies. This directory is also focusing on providing a link between the potential businesses and authorities supplying high level service support. With the help of the directory, many business people will meet different agencies, which will promote & consolidate the development of minority businesses. There is a classified section allowing readers to access business contacts easily. Business sectors are represented by the diversity & impact of the Turkish Minority Enterprises that contribute to the UK- EU economies. One of the innovations in Turkish Business Directory UK-EU is having two special sections on Business Support Services in London. The first is a feature article under the heading 'Useful Business Information' which explains the purpose and scope of the work of publicly funded business support agencies, whose services are available to employers. This feature article is accompanied by sponsorship advertorial and advertisements. The second section is a listing of business support agencies in the Yellow Pages sections of the Directory which also includes advertising and advertorial.
